The effect and purposes of this amend

The effect and purposes of this amend-ment are to confer power on the Legisle-ture to permit municipalities to levy a li-cense, franchise or income lax in lieu of an ad valorem tax on personal property. The whole metter is thus referred to the Legislature and left under its control and

The measure is an importent one, end in the opinion of The Dispatch possesses much merit. At least it deserves the most serious and enlightened consideretion on the part of the voters. Under our present iew of taxation it is impossi-ble to levy a tax on personelty in large municipalities that is just either to the state or the citizen. Taxes ere levied as of the 1st of September on personal prop-erly on hend and listed for taxation et that time. Leav ing out of sight the possibilities of freud under the present law on the pert of dis honest taxpeyers, it is well known that in these municipalities there are many concerns whose taxable property under the present iaw is double that of othe concerns whose earning capecity and profits are much larger, and both of these concerns might have on every dey of the year, but one, a lorge amount of personal property on which no taxes could be levied or collected. This is unjust to the state, because it loses much revenue to which it is entitled, and unjust to the

citizen because it destroys equality of

taxation, and seriously interferes with ompetition in husiness.

On the other hand if a judicious law t nacted providing for an income or licens tax, which at least ere substantially the same, perfect equalky in assessment would be secured, and both the state and the taxpayer would heve a definite rule under Ohio.
